

Ceduna

Indicative Anchoring Position

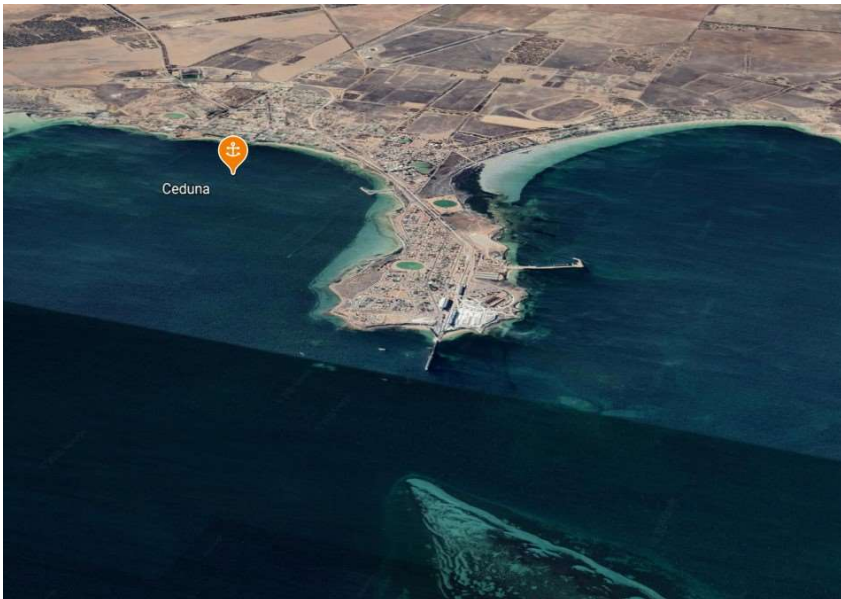

32° 07.4'S 133° 39.9'E

Shelter from N – E – S

Note. Indicative anchoring positions are for reference only and should not be used as waypoints. The best position for anchoring depends on many factors including vessel draft, tide, and forecast wind.

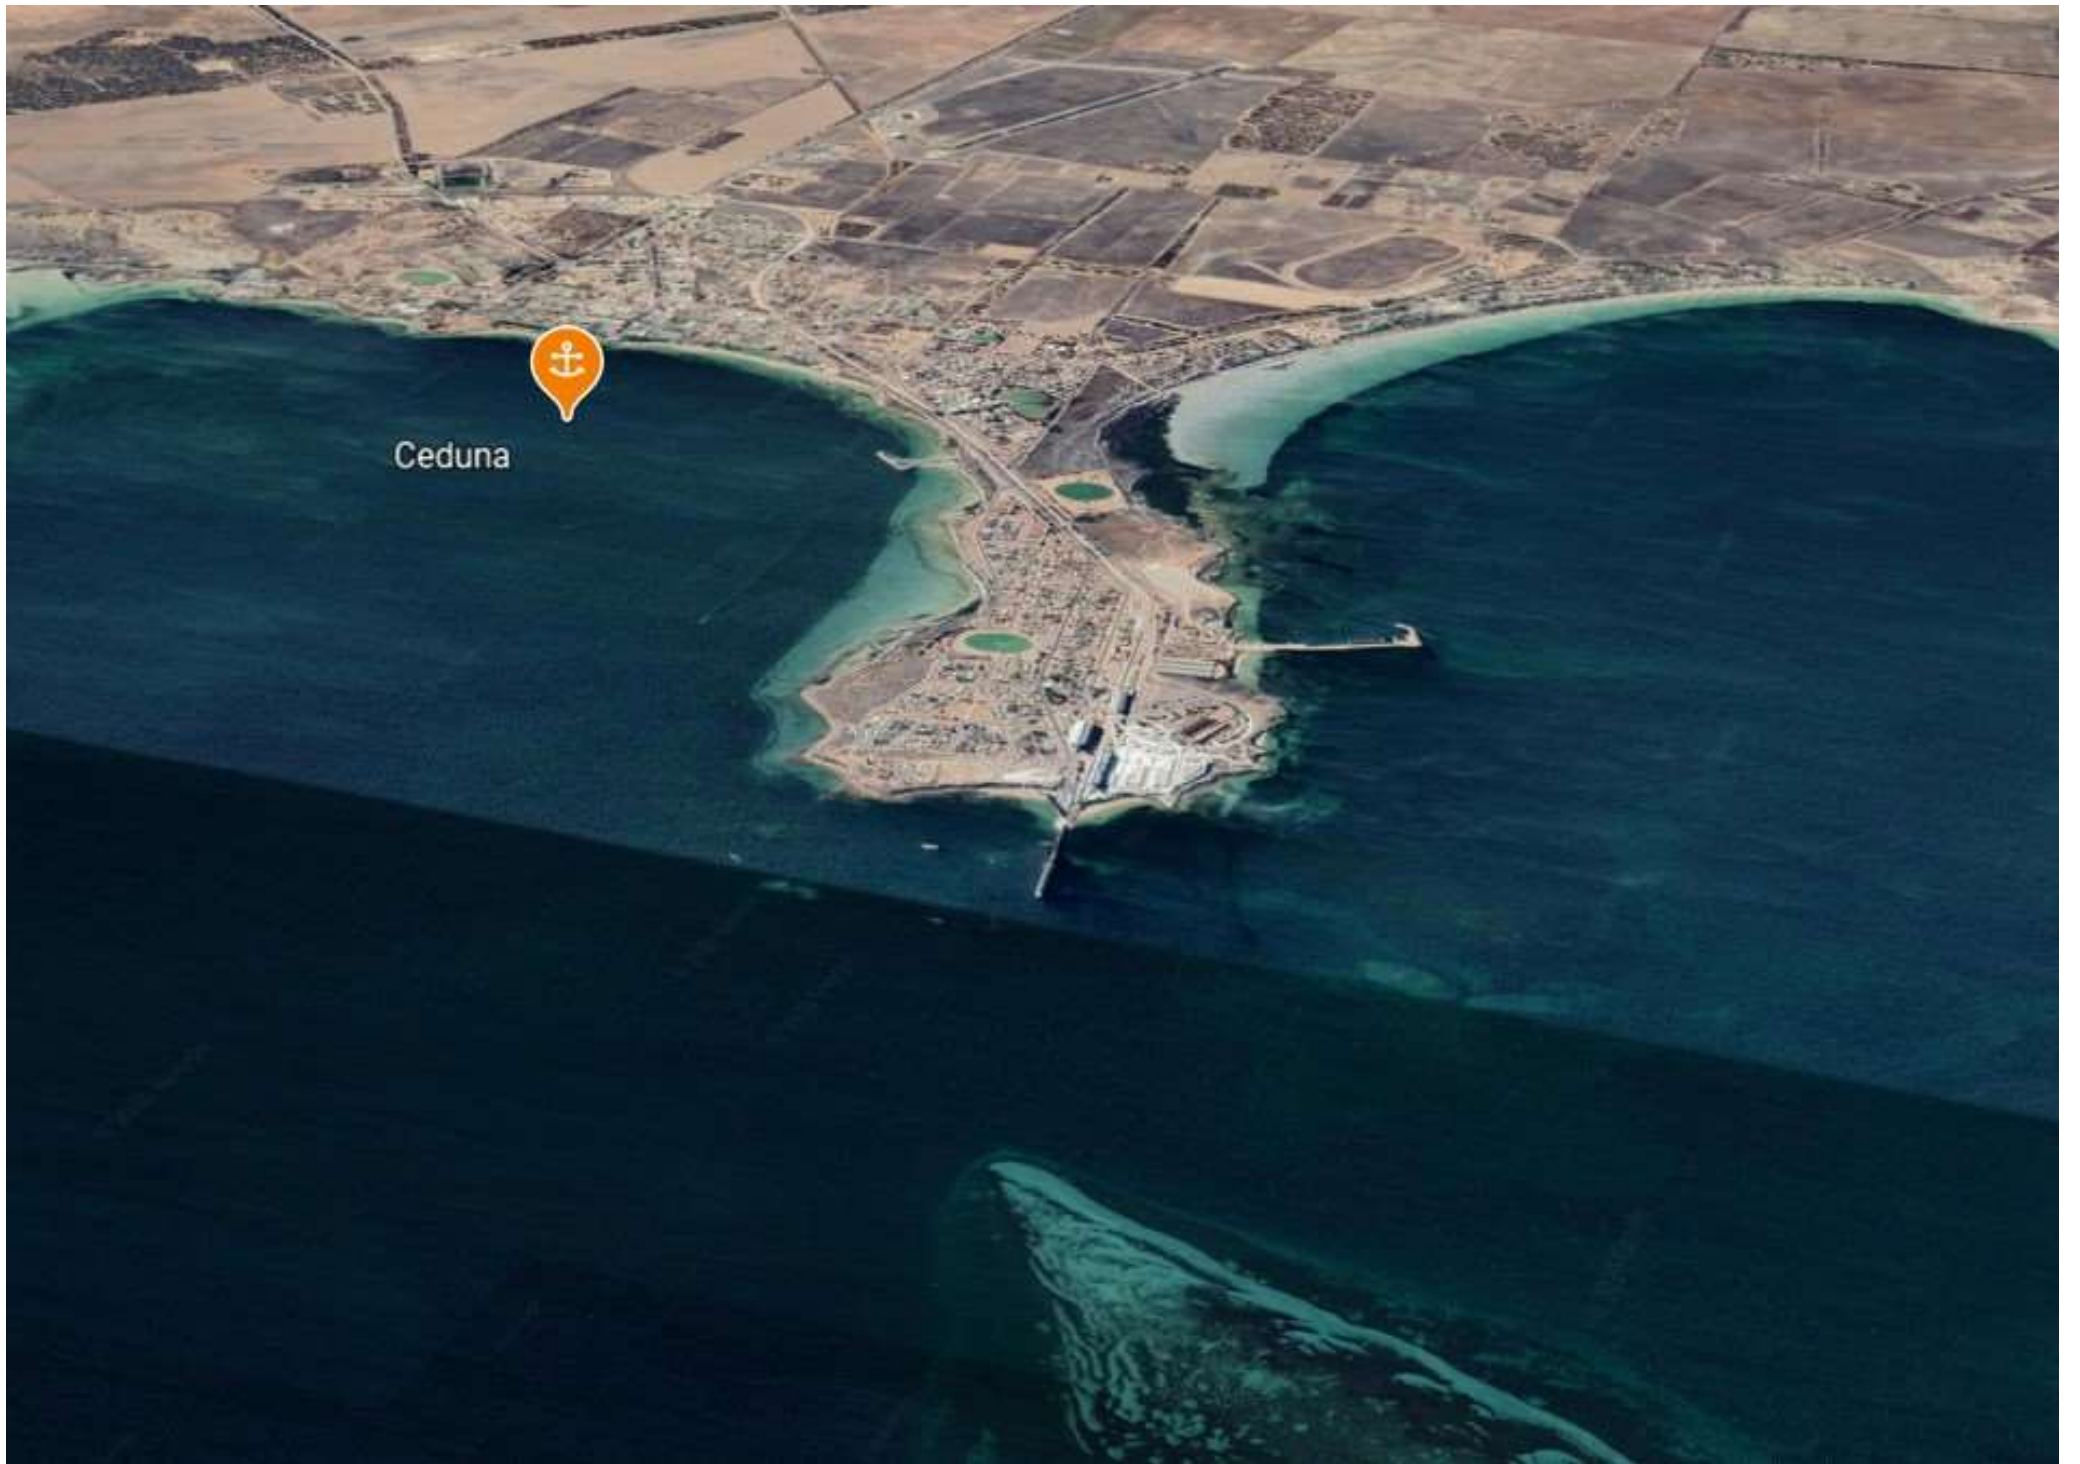

Ceduna is a large regional town and an important commercial shipping port. It is a very useful re-supply point for cruising yachts, with a good shopping centre and a range of services. Anchoring is possible anywhere in the bay with appropriate depth if the wind direction makes this necessary, and the position shown is useful for town access.
