

Portland

Marina Entrance Position

38° 20.6'S 141° 37.3'E

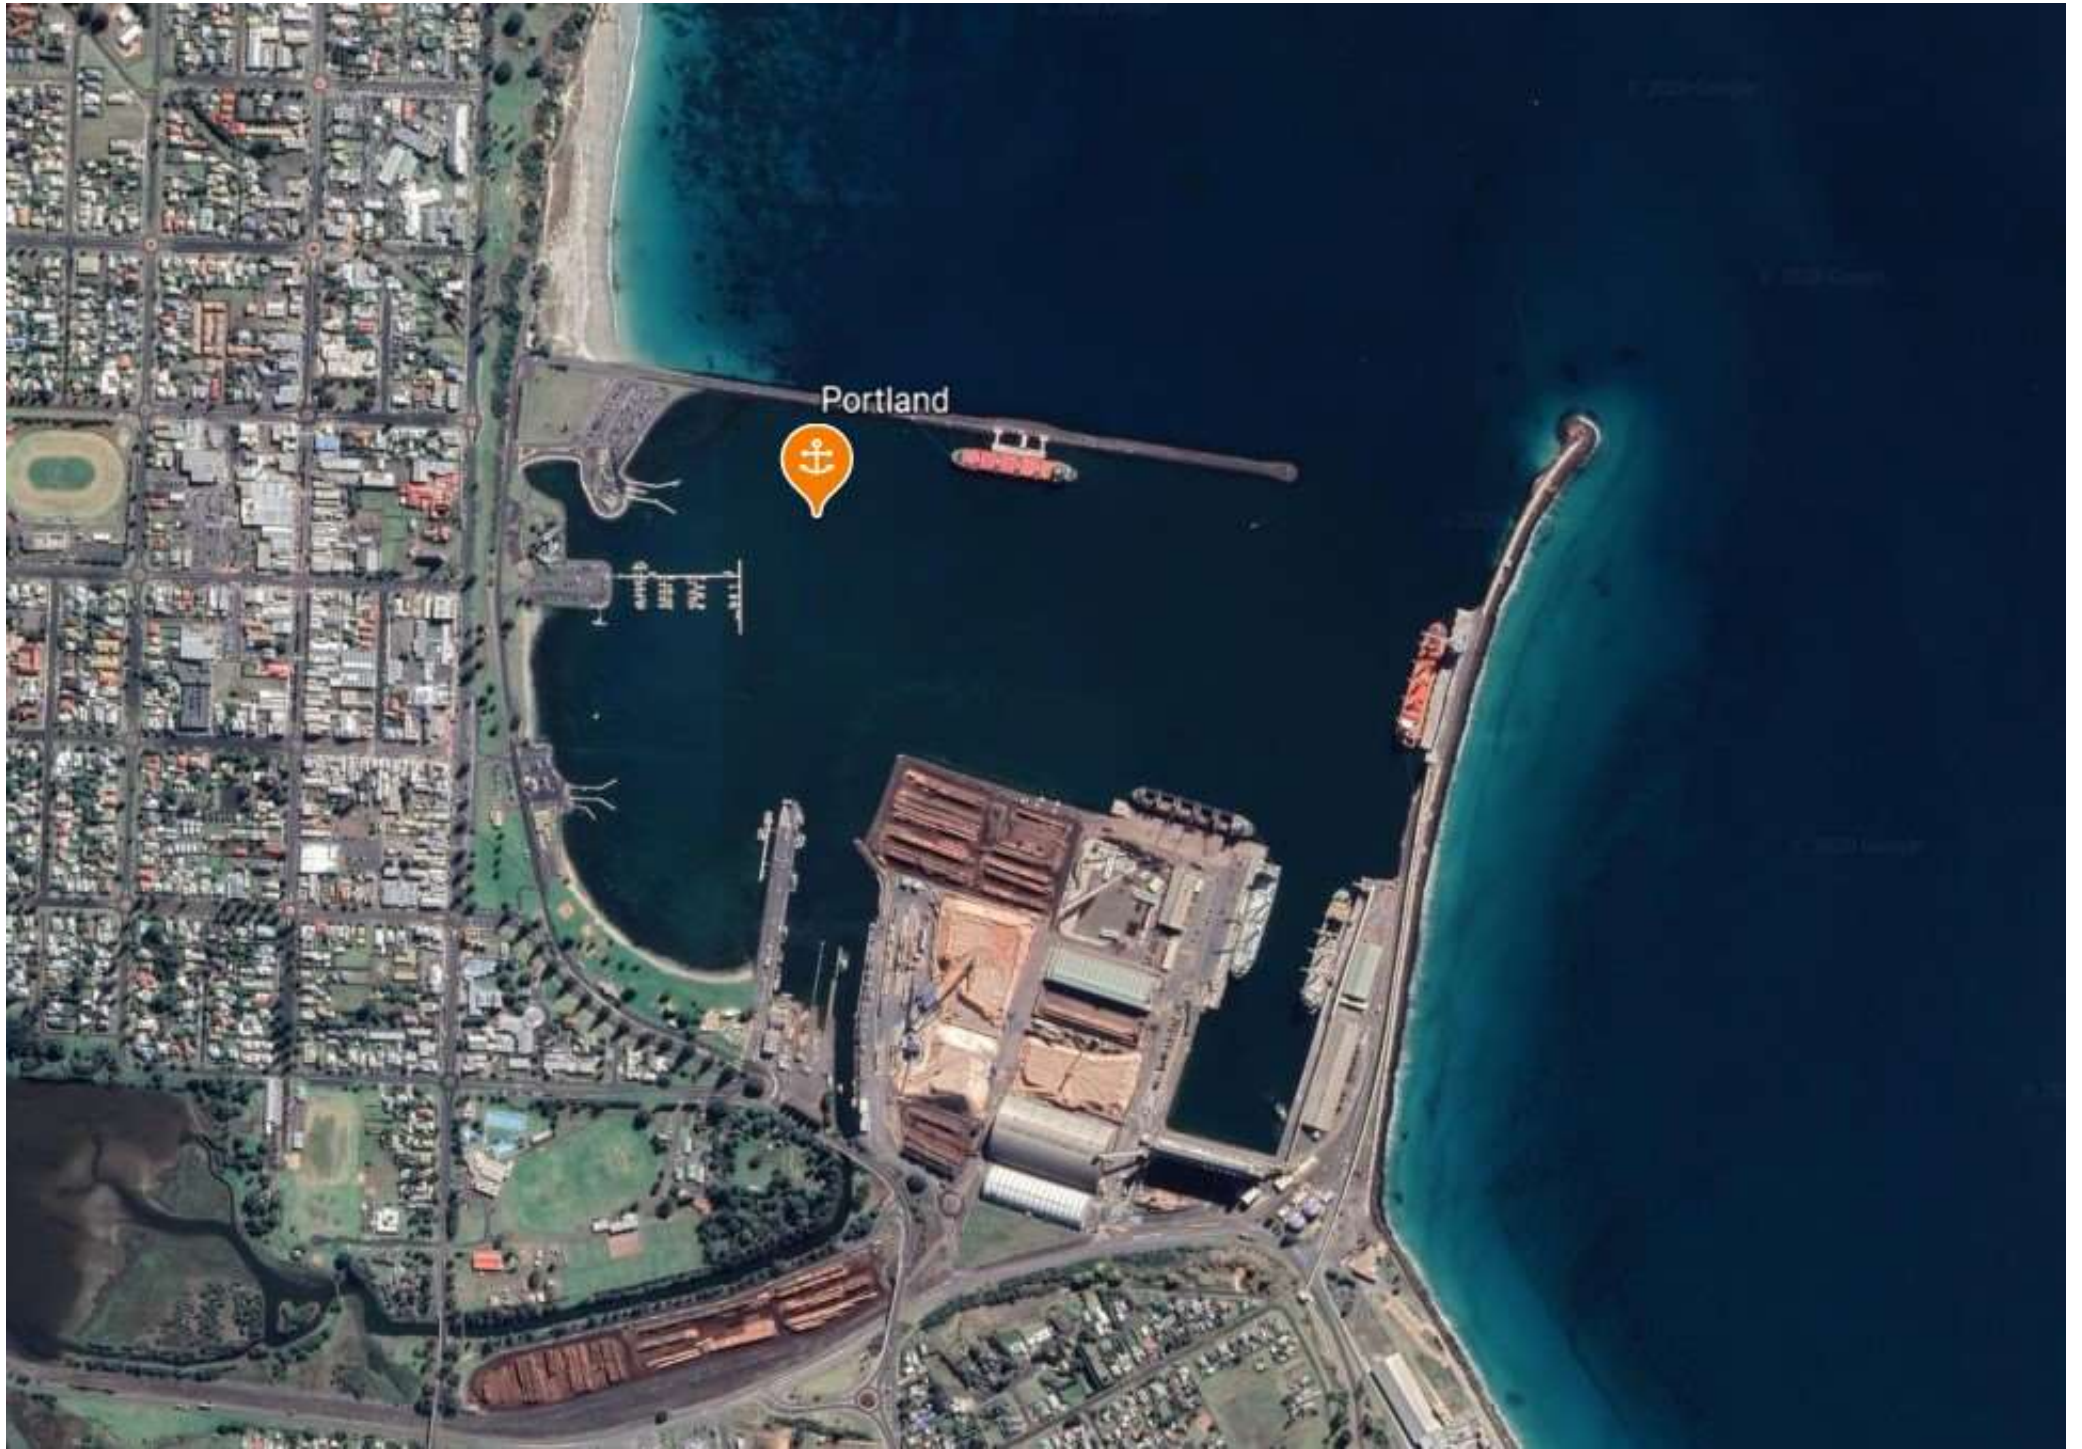

Shelter from All Directions

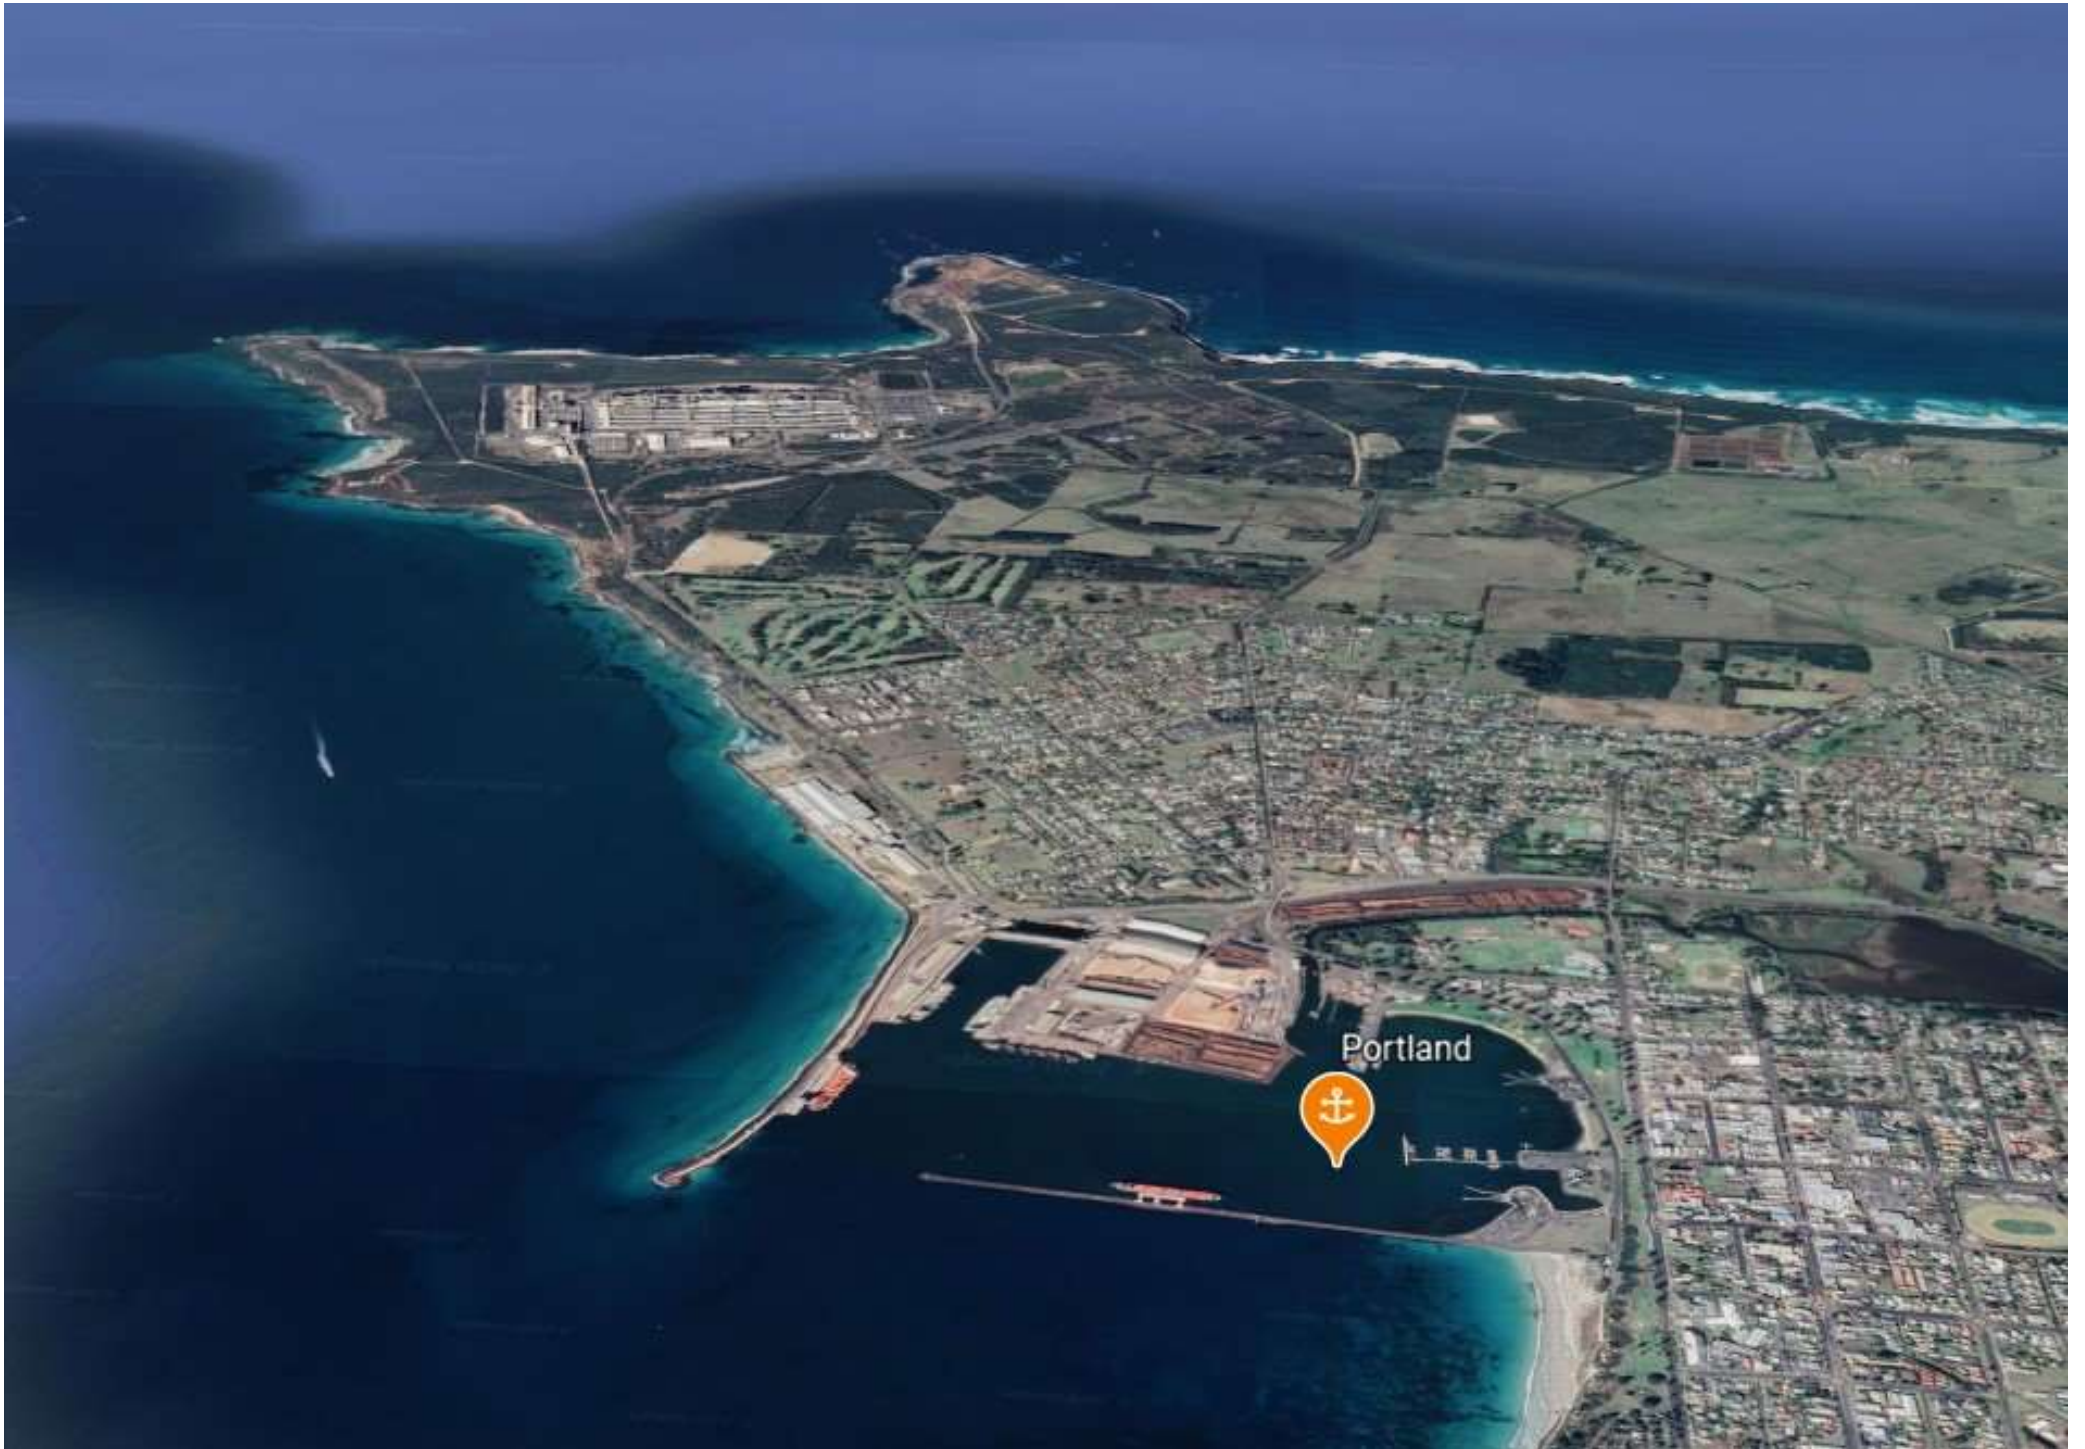

Note. The marina entrance coordinates are for reference only and should not be used as a waypoint.

Portland is a very large regional town in western Victoria. It is a busy commercial port, and the marina is located within the sheltered boundaries of the greater port area. The marina is relatively new, so the general condition of the berths and associated infrastructure is good with power and water available at all berths. However, there is no dedicated ablutions block, and public toilets nearby must be used. Showers are available by arrangement at the nearby yacht club.

There is no fuel berth, so jerry cans lugged to and from a local service station must be used. An excellent range of maritime services is available.

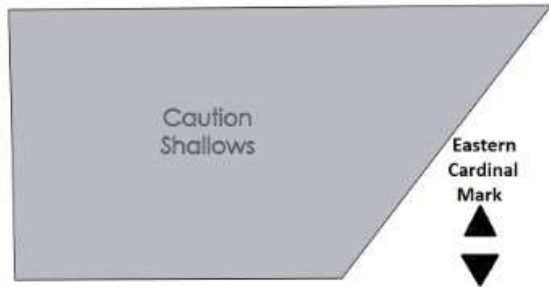

The marina is owned by the local council which should be contacted on (03) 5522 2140 (BH) to arrange a berth allocation. The full range of council contacts and port services can be viewed on this website (https://www.glenelg.vic.gov.au/Local_Port_of_Portland_Bay).
